Practice Pharmacist (Part Time 20 Hours)

We have an exciting opportunity for an enthusiastic, forward thinking Pharmacist to join our friendly practice to expand our clinical team and enhance patient care.

Why join our practice?

- We are a pro-active, close-knit practice who work in a busy but extremely supportive environment.
- We are both a Training and Undergraduate teaching practice
- We have an increasing list size of 12,500
- We have purpose built premises in Cove where we are co-located with our Community Nursing Team, Care Manager and OT
- Our current clinical team consists of 9 GP partners, 4 Practice Nurses, 3 HCAs and 2 extremely experienced Advanced Nurse Practitioners
- We have a full complement of Nursing staff who lead in our chronic disease management including the running of diabetes, asthma and hypertension clinics.

Your role will include supporting and enhancing our repeat prescribing systems, medicines reconciliation work, medication reviews and progression of pro active care of our patient population. You will work in a multi disciplinary team, to support colleagues and patients alike with a wide range of prescribing issues. We would also be keen to look at opportunities around triage and chronic disease management. In addition, within the role, we would like to look at any other identified opportunities and be supportive within training, mentoring and development. An ethos of mutual gain and development of opportunity within this new post would be a strong principle.

You may have a community, hospital or practice pharmacist background but must have proven communication, organisational and interpersonal skills. An independent prescribing qualification would be an advantage and a post-graduate clinical diploma or equivalent is desirable.

More details about our practice are available on our website –

www.covebayandkincorthmedical.co.uk

Start date negotiable with the successful candidate and job description available on request.
