CHRISTMAS JUMPER DAY

BAD WEATHER

A Thank You to Our Patients and Staff

We would like to thank our patients for their patience, kindness, and understanding during the recent period of severe snow and icy conditions. The weather caused unavoidable disruption, including reduced clinical staffing, and we are very grateful for the consideration shown to our team at what was a challenging time for everyone.

I would also like to pay special tribute to our staff, many of whom went above and beyond their contracted hours to ensure we could continue to provide a safe and effective service. This included travelling in difficult conditions, covering additional duties, and supporting colleagues to maintain care for our patient population.

General practice is a team effort, and the support shown by both patients and staff during this period was heart-warming.

Thank you once again.

Dr Lynne Mackenzie
